

Storage Tank Roofing System

Industrial Maintenance Group, Inc. has developed a system to extend the life of your existing roof systems while providing a supported structure to manage your tank. Our system can repair your roof's weak areas while the tank remains in service, saving unnecessary and costly cleaning expenses and downtime.

Manhole Rehabilitation & Repair

IMG can assist your company or municipality with manhole rehabilitation, restoration and strengthening. We can help you stop infiltration and degradation to your systems.

- Cost Effective
- Eliminate Infiltration
- Structural Integrity
- Excellent chemical resistance
- 30 Year Life Expectancy
- Tensile Strength (3500 PSI)
